KOSPERSE

PRE-DISPERSED GELS FOR COSMETIC & PERSONAL CARE

"A QUALITY PRODUCT BY"

KOEL[®]

KOEL COLOURS PRIVATE LIMITED

WORLD'S Local Supplier
For Cosmetic COLOURS

See
colour through us

KOSPERSE series presents a highly specialised portfolio of pre-dispersed gels to help the formulators achieve the right rheological properties for aqueous & non-aqueous formulations.

This range includes pre-dispersed & activated systems made from different types of cosmetic oils, esters & solvents, enabling excellent dispersibility of additives with minimum shearing. KOSPERSE gels have very high viscosity & shear thinning properties & are very easy to handle & use.

KEY FEATURES:

- Thickens the formulation
- Shear thinning effect on application
- Enables very smooth application on surface
- In powders, small quantity can give very high coverage.
- Application of lip-sticks is very smooth & helps form intact films
- EXCELLENT SKIN FEEL
- Thermostable rheology
- Saves production time & costs.
- Anti-settling properties in formulations.
- Gel can be added at any convenient stage in the production cycle.

PRODUCT BASKET

PRODUCT	VEHICLE	ADVANTAGE TO THE FORMULATION
KOSPERSE C	Castor Oil	<ul style="list-style-type: none">• Reduce pigment migration.• Excellent pay-off on application.• Smudge proof effect for lip-sticks & eye mascaras.
KOSPERSE D	Diethyl Adipate	<ul style="list-style-type: none">• Imparts plasticizer property to formulations.• Provides flexible & intact films on surfaces.• Lubricant effect for powders on skin surface.• Beneficial for bath products, lotions, skin fresheners, make-up foundations, skin care.• Helps soften synthetic compounds in formulations.
KOSPERSE CC	Capryl / Capric Triglycerate	<ul style="list-style-type: none">• Excellent shine for lip care products.• Efficient oil gelling capacity.• Enables pigment suspension with fine consistency.• Good emulsion stability.• Non-sticky, smudge free & very smooth character for lip-sticks.
KOSPERSE I	Iso-Propyl Myristate	<ul style="list-style-type: none">• Non-greasy & silky skin feel.• Imparts emollient & glidant nature to powders.• Excellent sensory character.• Soft & smooth appearance.
KOSPERSE O	Octyl-12- Hydroxy Stearate	<ul style="list-style-type: none">• Imparts controlled flow for emulsions, creams, etc.• Imparts very rich emollient feel.• Superior pigment wetting & dispersing properties.• Compatible with wide range of skin care & cosmetic products.• High gloss & moist texture to lip-stick formulations.
KOSPERSE ININ	Isononyl-Isononate	<ul style="list-style-type: none">• Predictable, reproducible and stable viscosity control.• Shear-thinning viscosity.• Excellent suspension of pigments and actives.• Controlled alignment of special-effect pigments.• Thermostable viscosity raises apparent melting point and ensures cost-efficient use of UV filters.• Emulsion stabilization [w/o and o/w].
KOSPERSE IDD	Isododecane	<ul style="list-style-type: none">• Predictable, reproducible and stable viscosity control.• Shear-thinning viscosity.• Excellent suspension of pigments and actives.• Controlled alignment of special-effect pigments.• Thermostable viscosity raises apparent melting point and ensures cost-efficient use of UV filters.• Emulsion stabilization [w/o and o/w].

INCI: Castor Oil / Diethyl Adipate / Capryl- Capric Triglycerate / Iso-Propyl Myristate / Octyl-12 Hydroxy Stearate, Propylene carbonate & Stearalkonium Hectorite.

APPLICATION: • Lipstick • Nailpolish • Eye Mascara • Body Powder • Foundation
• Blushers • Cream and lotion

Note:
• Tailor made gels are available on request.
• Formulation support available.

• UV SunScreen
