

ALGAKTIV

Inspiring Biotechnology
for
Sustainability Pioneers

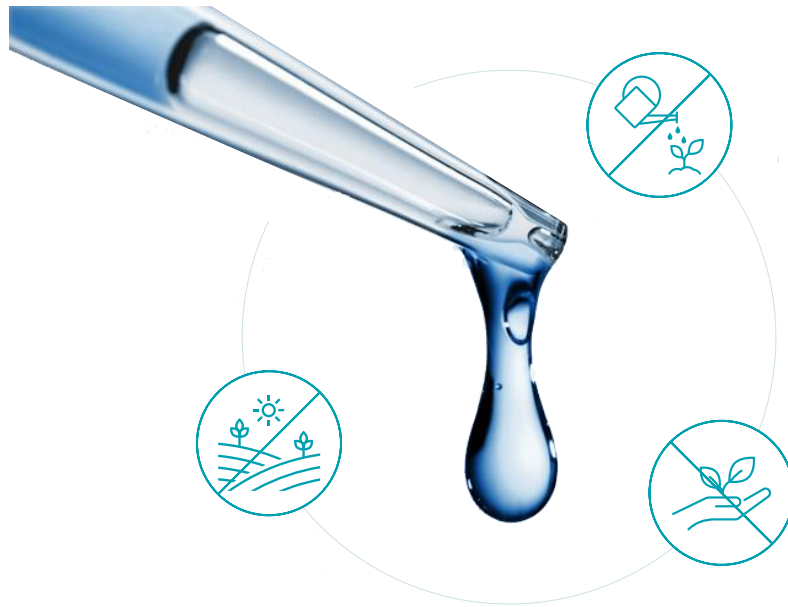

BEYOND SUSTAINABILITY

ALGAKTIV sources wild microalgae in nature respecting the environment and its biodiversity

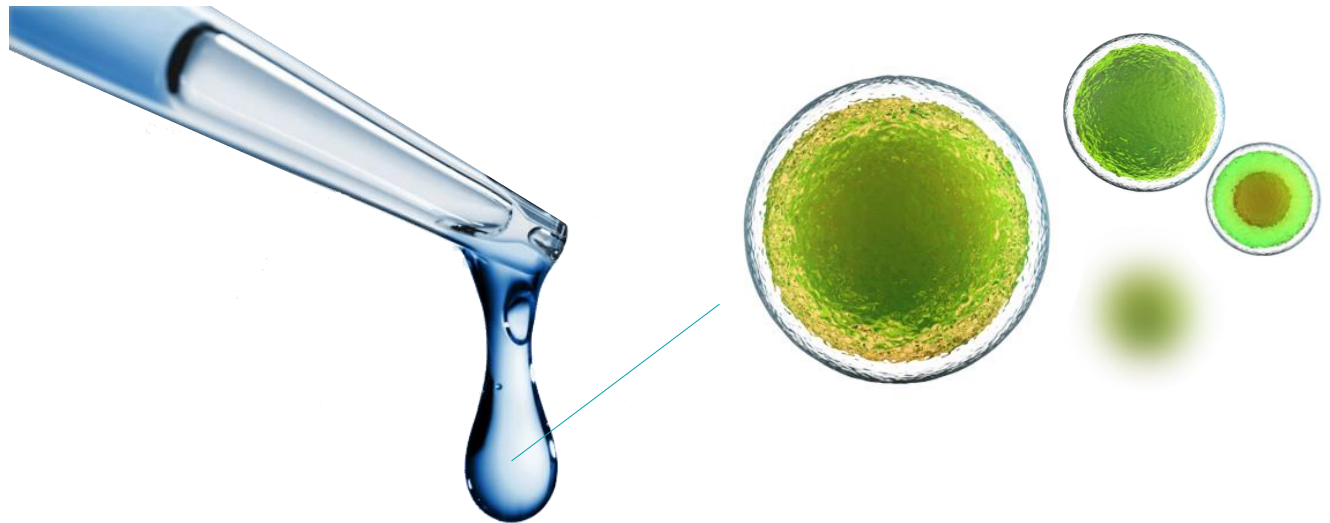

BLUE BEAUTY

Harnessing **biotechnology** allows us to use **botanicals** without compromising the **natural environment**

NATURAL BEAUTY

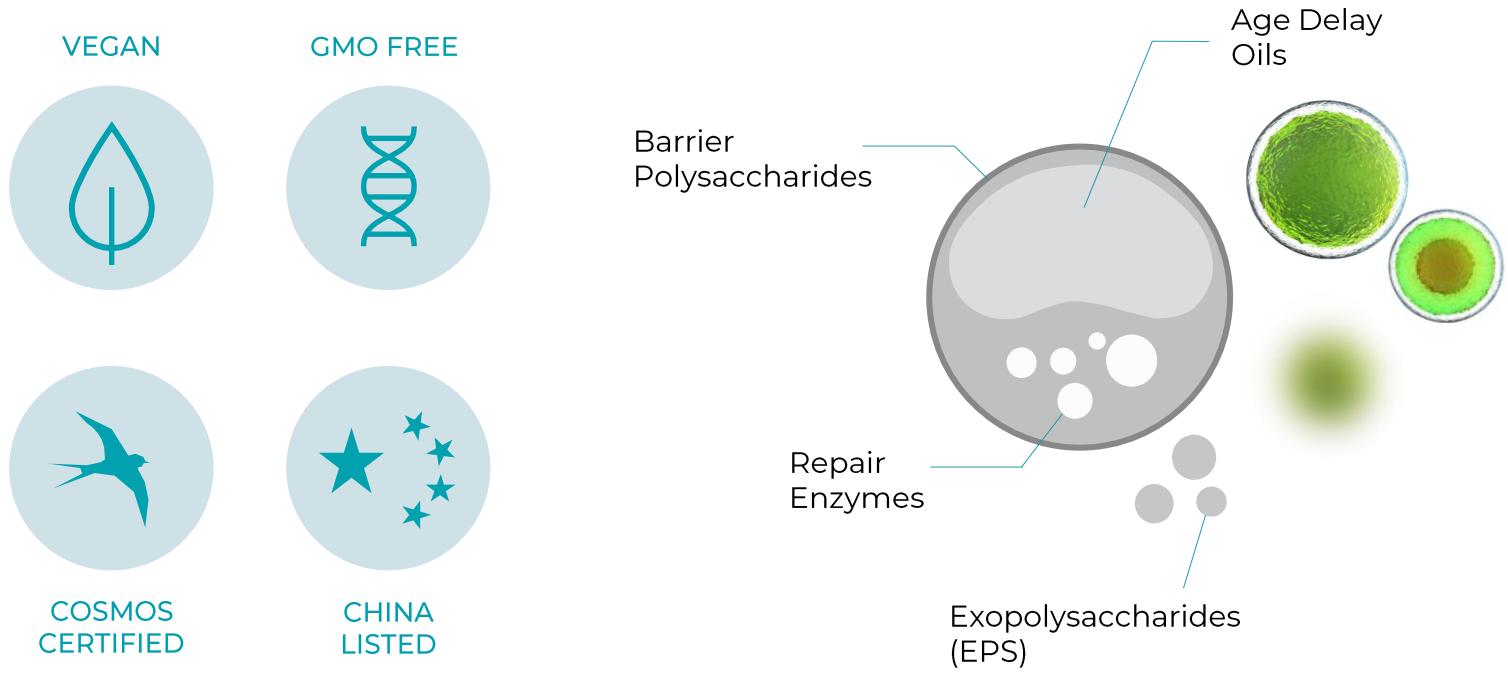

Coming straight from the **origins of life** itself, **microalgae** are **concentrated life** in a **single drop** of water

Thousands of microalgae in a single water drop can be isolated in nature and grown in photobioreactors without depleting our natural environment.

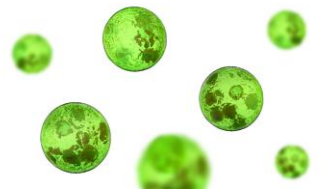

PURE MICROALGAE INNOVATION

With **sustainability** at its core, **microalgae** offer the **ultimate solutions** for the consumer that cares

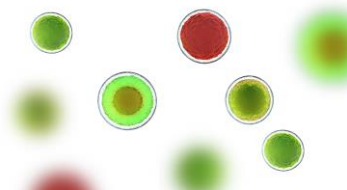

BARRIER TECHNOLOGIES

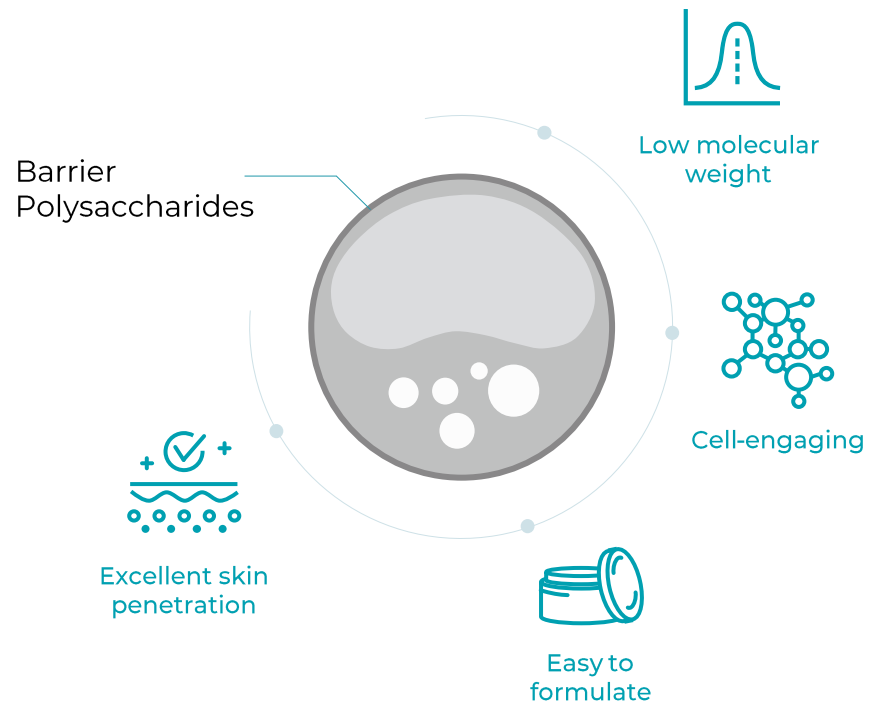

Microalgae polysaccharides are robust & biocompatible, interacting with the skin at a molecular level

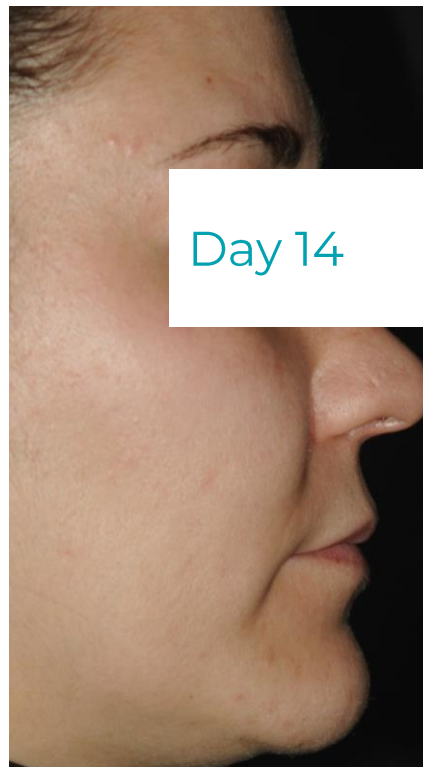

ALGAKTIV® BioSKN
The ultimate skin superfood

ALGAKTIV® UpLift
Pure arctic wellness

ALGAKTIV® BioSKN
